**QUALITY AND  
ENVIRONMENTAL POLICY**

# QUALITY AND ENVIRONMENTAL POLICY

## INTRODUCTION

Quality is a key factor that affects all areas within the company and its subsidiaries. We strive to ensure that our products are of high quality and that we have satisfied customers. In order to have a quality-assured environment, it is necessary that we work systematic with our processes and that processes are a natural part of the company.

Smartoptics AS and its subsidiaries vision is to create a sustainable society through innovation. This means that the environmental perspective is important to us and a natural part of the dialogue with ours employees, customers, partners and owners.

## PURPOSE

This policy describes the company's intention to quality and environment.

## SCOPE

This policy applies to all employees, consultants regardless of employment type who carry out assignments under Smartoptics AS and its subsidiaries regardless of geographical location.

## QUALITY POLICY

Smartoptics is committed to customer satisfaction by providing them high quality products and services which meet requirements and are fit for their purpose the company and its employees always bear in mind that an emphasis on quality is critical to their success. This means:

- Clear and understandable quality objectives
- Continuous improvement and follow-up
- Structured process environment
- Risk based thinking and awareness

## ENVIRONMENTAL POLICY

Smartoptics AS and its subsidiaries works active to improve environmental work and create conditions and incentives for employees to choose climate-smart alternatives. This can be done through guidelines regarding purchasing and traveling, as well as by development of internal routines and processes. We follow the national and international regulations and take into account the latest recommendations.

Smartoptics AS and its subsidiaries has a dialogue with suppliers and partners to explore the possibility of reducing the environmental impact. This means:

- Clear and understandable quality objectives
- We aim to use Green transports
- Continuous improvements regarding environment
- Exploring possibilities to reduce CO2 footprint

This policy together with other policies and values is a contributing part to Smartoptics AS Code of Conduct.
